I'm a software developer enthusiast and Information Systems student. I specialize in front-end web development with **Next.js**, **React**, and **Tailwind**, and back-end development with **Express** or **Laravel**, alongside database management with **MySQL**, **PostgreSQL**, and **MongoDB**. I also develop mobile applications using **Android Kotlin** and **Flutter Dart**. I'm a creative, fast learner, eager to explore new technologies and contribute to tech projects.

EDUCATION

SMAN 17 Surabaya – Surabaya, Indonesia   *2019 - 2022*
Science Major
UPN 'VETERAN' Jawa Timur – Surabaya, Indonesia   *2022 - Present*
Information Systems, Faculty of Computer Science
